HAWAI Italia Announces Strategic Collaboration with ISCO.

HAWAI Italia is proud to announce a new strategic collaboration with ISCO, combining expertise, innovation, and advanced manufacturing capabilities in the field of footwear components and safety solutions.

This partnership marks an important step toward the development of next-generation products designed to meet the evolving demands of the international footwear market, with a strong focus on performance, durability, lightweight materials, and technical innovation.

Through this collaboration, HAWAI Italia and ISCO will work together to enhance product development, optimize production processes, and introduce innovative solutions for safety and performance footwear applications.

“By joining forces with ISCO, we strengthen our commitment to quality, innovation, and customer-oriented development,” said a spokesperson from HAWAI Italia. “Together, we aim to deliver high-performance solutions that combine Italian design expertise with advanced technical engineering.”

The collaboration reflects both companies shared vision for continuous innovation, sustainable growth, and excellence in manufacturing.

Further developments and upcoming product launches resulting from the partnership will be announced in the coming months.

About HAWAI Italia

HAWAI Italia specializes in the development and production of innovative footwear components, combining Italian craftsmanship, advanced materials, and industrial expertise to serve international footwear brands and manufacturers.

About ISCO

ISCO is recognized for its technical know-how and manufacturing excellence, providing advanced solutions and technologies for the footwear and safety industry.
